DOB: 2002-05-03 — **Gender:** Male

Summary

Highly motivated and results-oriented Computer Applications graduate with a strong foundation in web development (HTML, CSS, JavaScript, React.js), Java programming (OOP concepts), and software development methodologies. Eager to leverage technical skills and innovative ideas to contribute to a fast-paced and dynamic IT environment.

Keywords: HTML, CSS, JavaScript, React.js, Java, OOP, Spring, MySQL, Hibernate, JDBC, Servlets, Spring, database management, software development, problem-solving, analytical thinking, communication, teamwork

Education

- **Sri Gokul College, Kolar** (2020-2023): Bachelor of Computer Applications (83.78%)
- **Vision India PU College, Ronour Cross** (2018-2020): PUC-EBACS (88.16%)
- **GHS High School, Ronour** (2015-2018): High School (88.32%)

Skills

Technical Skills

- **Web Development:** Proficient in HTML5, CSS3, JavaScript, and React.js.
- **Java:** Core Java, collections, Hibernate, JDBC, Servlets, Spring with good knowledge of Java programming.
- **Databases:** Exposure to SQL concepts and database management.

Soft Skills

- **Problem-solving:** Adept at identifying, analyzing, and resolving complex technical issues.
- **Analytical Thinking:** Strong ability to analyze data, identify patterns, and develop solutions.
- **Communication:** Effective communication skills, both written and verbal.
- **Teamwork:** Collaborative and team-oriented, with a proven ability to work effectively within a team environment.

Training

Completed Software Development Course at Jspiders, Rajajinagar, Bangalore (2024)

Project

Men Salon Management System

- **Project Description:** Developed a Men Salon Management System as an individual project. The system was designed to streamline the operations of a men's salon, including appointment scheduling, staff management, and inventory control.
- **Technologies Used:** The project was implemented using HTML, CSS, JavaScript, React.js, Bootstrap for the frontend, Java as the middleware, and MySQL for the backend. The IDE used for the project was Eclipse.
- **Role:** As an individual project, I was responsible for all aspects of the project, from initial design and database setup to frontend development and final testing.
- **Outcome:** The project was well-received, with particular appreciation from the Head of Department for its robust functionality and user-friendly interface.
